

AK-58i MICROPHONE STAND

Storage line Storage design

Please read the instructions carefully before use

1. Product List

Microphone stand

Stand base

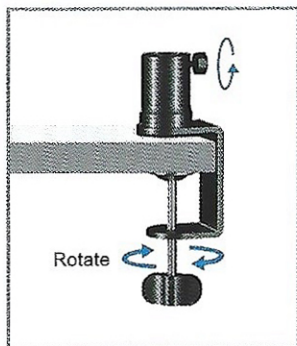

Washer nut

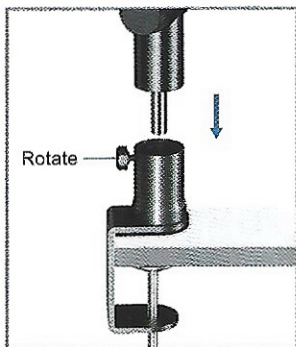

5/8" adapter

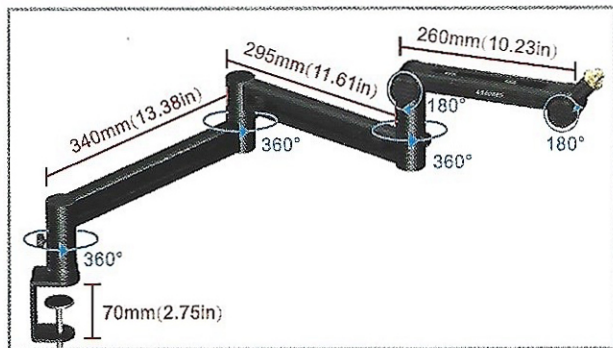

3/8" to 1/4" adapter

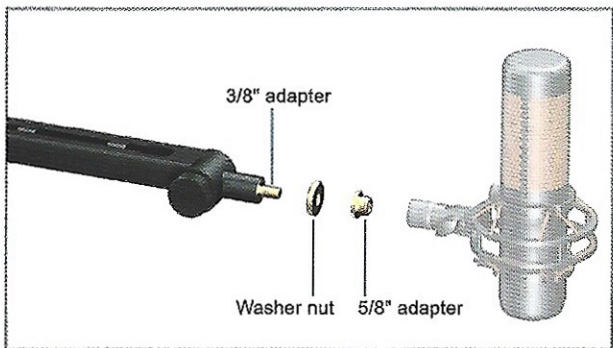

1. Put the stand base on the table and rotate it to tighten.

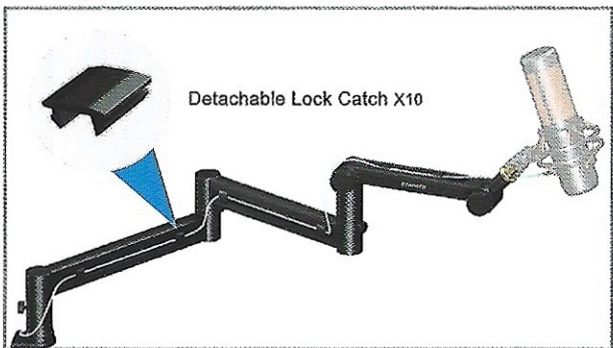

2. Fix the mic stand on the base and rotate the nut to fix the stand.

3. Rotate the screws, adjust the stand angle to a suitable position.

4. Detachable 5/8" inch adapter with 3/8" inch adapter, suitable for more microphones. (The washer nut can move back and forth, which can lock the microphone shock mount absorber to your desired angle.)

5. The microphone cable can be placed in the slot to keep it clean during recording (Note: The product does not contain a microphone).
